Heal Sooth Relief Balm

- **Heal.** Formulated for therapeutic relief. May help heal aches, cramps, and pain related to but not limited to P.M.S, migraines, sports injury, and back pain.
- **Soothe.** Helps regulates the inflammatory process while rejuvenating, soothing, and softening the skin. Great for tattoo recovery & maintenance. Restore radiance to tired and rough skin.
- **Relief.** Fast absorption for fast-acting results and quick relief. Helps promote homeostasis (repair

& regulation) of the cells.

- **Balm.** Unlike other healing balms, there is no THC making it legal in all of the United States and over 40 countries. That means there is zero chance you're getting high. Our balm contains 250 mg organic full spectrum hemp.

The Benefits Up Close

Inflammation

Rampant inflammation is the culprit behind an endless road of devastating diseases. If your balm isn't designed to obliterate inflammation, it's never truly going to help with menstrual relief, joint discomfort, skin repair, or a sports injury.

We only chose ingredients where research has shown it can help with inflammation in some manner. This means this balm provides 14 unique inflammatory fighting agents.

Menstrual Relief

Willows bark, Hemp, and St John's Wort are the perfect trifecta for fighting the symptoms of P.M.S. Willows bark promotes increased circulation & blood flow in the abdominal area, and hemp is there to help obliterate away those cramps.

Both St. John's Wort and hemp support each other by helping with stress and changes in mood.

Direct Support At The Source

If you find yourself complaining about a stiff back or sore wrist, you're not looking for mild whole body relief. Instead, you need something that really targets the source of discomfort. We designed our healing balm so you can apply how much you need, whenever you need, right at the source.

Skin Repair

If it isn't the anti-inflammatory and antibacterial properties in beeswax that help repair damaged skin, it's the antioxidants in hemp providing it protection from wear-and-tear. Then we include avocado seed oil, apricot kernel oil, and jojoba oil — all of which provide unique compounds for skin health.

Sports & Exercise

The full spectrum of cannabinoids in hemp helps promote hemostasis of the cells. In layperson terms, this means hemp may help our cells optimize themselves to better repair strained and sore muscles.

HEAL and SOOTHE INGREDIENTS:

Organic Hemp Oil, Avocado Seed Oil, Organic Hemp Extract, Apricot Kernel Oil, Jojoba Oil, Beeswax, St John's Wort, Cramp Bark, White Willow Bark, Chamomile, Rosemary Leaf Extract, lavender, Blue Mallee Eucalyptus, and Lemon Peel Oil.

Mary's Nutritional's Muscle Freeze
