

Bluebird Botanicals Signature 6x

Concentrated CBD Signature Oil (1,500+ mg cannabinoids/1oz)

This concentrated CBD oil blend is made of the same ingredients as our Hemp Signature, but has six times the amount of cannabinoids. Instead of 250+ mg per fluid ounce, the concentrated version has 1,500+ mg of cannabinoids per fluid ounce, the same potency as Concentrated Hemp Classic. 1 ml (30 drops) of Concentrated Hemp Signature contains at least 50+ mg of cannabinoids.

Ingredients

1. Full-spectrum hemp extract (1,500+ mg cannabinoids/fluid oz)
2. Frankincense carterii CO2 extract
3. Black cumin seed oil - cold-pressed
4. Hemp seed oil - cold-pressed from hemp seeds grown in Canada

Standard Use & Typical Serving Size

Keep at room temperature. Gently swirl the bottle (do not shake vigorously) before using. Most people swallow 15 drops (25+ mg cannabinoids) or more, as desired. The amount that people take on a daily basis can vary greatly. Our hemp extract products can be ingested morning or night, on an empty or full stomach.

Conversions- Ounce, Milliliter, Drop, & Milligram

1 fluid ounce = 30 milliliter (ml) = 900 drops = 1,500+ mg cannabinoids

1 ml = 30 drops

CBDistillery 30mg Full Spectrum CBD Infused Softgels – 30 count

Pop and go! CBDistillery™ Full Spectrum Softgels are among the most convenient ways to get your daily dose of CBD. With a perfectly pre-measured serving of 30mg CBD in each softgel, you'll never have to worry about counting drops or mixing and measuring again. Get all the benefits of Full Spectrum hemp-derived CBD with our 30mg Softgels!

How to Use:

- Pop and go! Simply take with water and swallow like you would with any other supplement.
- Adjust dose as needed, individual results may vary.
- The recommended dosage of CBD is 30-60mg daily. For best results, it is recommended that you start with 5-10 mg of CBD, wait 3-4 hours, and increase as necessary to achieve desired effects.
- For individual recommendations on CBD dosages, check with your physician or healthcare provider.

Ingredients:

Fractionated Coconut Oil (MCT – Medium Chain Triglyceride), Full Spectrum Hemp Extract (Aerial Parts), Sunflower Lecithin, Gelatin (Gelatin Capsules)

CBDistillery Full Spectrum CBD Oil Tincture - 1000mg - 30ml

- Abundant in fatty acid Omega 3, B complex vitamins, and all 20 essential amino acids
- Sourced from non-GMO industrial hemp grown in the USA through natural farming practices
- Oil extracted from aerial plant parts

Ingredients: Fractionated Coconut Oil (MCT) and Full Spectrum CBD Hemp Extract (Aerial Parts)

How to Use

- CBD oil tinctures are very convenient and easy to use! Simply apply your desired dosage and hold under the tongue for 10-20 seconds before swallowing. Get creative and add CBD oil to your favorite drinks!
- Adjust dose as needed, individual results may vary.
- The recommended dosage of CBD is 30-60mg daily. For best results, it is recommended that you start with 5-10 mg of CBD, wait 3-4 hours, and increase as necessary to achieve desired effects.
- For individual recommendations on CBD dosages, check with your physician or healthcare provider.

Charlotte's Web Extra Strength Oil – Chocolate Mint – 30ml

More than just CBD: CBD plus naturally-occurring phytocannabinoids, terpenes, flavonoids and more in every serving.

This premium hemp extract oil is designed to help maintain:

- Support for normal, everyday stresses*
- Healthy recovery from exercise*
- Support a sense of calm for focus*

It has limited, select ingredients to ensure you have the absolute best hemp extract oil possible, with no fillers. Our oils include our premium hemp extract, oil, and flavor. That's it.

Additional Information

- Dropper included
- The color of hemp extract CBD oil can vary from batch to batch. Charlotte's Web products are not made with any additives or dyes to standardize the color of our products. That said, you're left with only 100% natural CBD oil the way nature intended.
- These extracts contain a unique blend of cannabinoids plus terpenes and flavonoids. Cannabinoids are phyto-compounds that are produced by the hemp plant. One of the most commonly known

cannabinoids in hemp is non-psychoactive cannabidiol (CBD). Cannabinoids work with the mammalian Endocannabinoid System (ECS), which is a vast receptor system to support homeostasis and health.*

- All pesticides, mildewcides, and herbicides used on our plants are 100% organic
- Extra Strength CBD Oil was formerly known as Everyday Plus Hemp Extract Oil

Take 1-2 drops daily or add this hemp extract oil to smoothies or coffee in the morning and reap the benefits of one of nature's great wellness supplements. Charlotte's Web Everyday Plus formula has 2x the strength of regular hemp oil with double the phytocannabinoids that may support overall wellness. Mint chocolate flavor.

Ingredients: MCT Fractionated Coconut Oil, Organic Chocolate Mint Flavor Oil (Organic Sunflower Oil, Natural Flavors).

Full Spectrum CBG-CBD Oil

Suggested Use

For best results, store in a cool and dry place away from direct sunlight. If you have a medical condition or take pharmaceutical drugs, please consult a physician before use.

Directions

- Take 1 to 2mL sublingually as needed.
- Gently squeeze the rubber end and release. The dropper will be half full which indicates a “full dropper”. (Oil will not fill the entire dropper)
- Repeat regimen twice a day, once in the morning and once before bed.
- Sensitive to flavors? Feel free to mix your oil into your favorite food or drink.

HempMeds Gold Capsules 25 Mg 30ct

What is Real Scientific Hemp Oil?

RSHO™ is HempMeds®’s pure non-GMO hemp oil, unmodified and sourced straight from the hemp plant. RSHO™ is extracted from hemp cultivated free of chemical fertilizers, pesticides, or herbicides.

RSHO™ oil offers more than just cannabinoids like CBD. Hemp oil also provides the body with a number of essential nutrients, like vitamins and minerals, omega fatty acids, proteins, flavonoids, and terpenes. Gaining these nutrients, which are often missing from our modern diets, is just one more benefit to adding a hemp oil supplement to your diet.

Gold Label RSHO™ has been decarboxylated to modify its natural CBDa to CBD. Additionally, the Gold Label RSHO™ is put through an extra filtration process to remove the hemp plant’s excess waxes,

chlorophyll, and other plant material. This purification stage refines this oil to a golden color. This process also leaves our Gold Label oil as the most potent of HempMeds products, maximizing the CBD content

Real Scientific Hemp Oil Ingredients

The main - and sometimes only - ingredient in RSHO™ is pure and real hemp oil. Unlike isolated or synthetic cannabinoids, full-spectrum hemp oil refers to pure hemp oil that features all the same cannabinoids present in the original hemp plant, providing an all-natural CBD hemp oil supplement that allows the cannabinoids to work together in what is called the entourage effect.

RSHO™ capsules can be taken orally once or twice daily.

Mary's Nutritionals Elite Transdermal Gel Pen

Mary's patented **Transdermal Gel Pen** is a great resource for immediate relief and a wonderful accompaniment to the transdermal patch. Each pen contains 50 (2mg) doses of gel enriched with activated hemp extract.

Mary's patented **Transdermal Gel Pen** is a great resource for immediate relief and a wonderful accompaniment to the transdermal patch. Each pen contains 50 (2mg) doses of gel enriched with activated hemp extract. Apply it to the wrist, ankle or any other venous area of the skin.

"I love having the ability to help my son with the Gel Pens. Knowing he is getting exactly 2mg of hemp extract every time allows me to make sure he is getting exactly the amount he needs." - Dan, 56

"Your Gel Pens is amazing. I use it to help ease the muscle spasms in my fingers. As a pianist, my fingers and hands ache and the Gel Pens offers fast relief after Long hours of working with my hands." - Katie, 25
